*Looking for more ways to get involved?*

*Be a GT Grantee Liaison*

**Who:** All GT Members are Eligible

**What:** Seeking one or two members to be the liaison(s) for each of the organizations who have received funding from Giving Together.

**Where:** Easy to do from your home, office or really anywhere.

**When:** One year term that's very renewable

**Why:** Generally, grantees receive funding for projects that cover a 1 year period. While we know that financial support is important, we also know that there more ways for our group and for individual members to support the great work these organizations are doing in our community. We think that having one or more of our members connect directly with each one of them as a liaison will make this possible.

**How:** The Liaisons' main role will be to establish a connection with the executive director of the respective organization, or their designee. They will check in with them from time to time to gather information to share with GT members through our website and ongoing communications. The items we'd like to share include: a link so members can sign up for a grantee's newsletter, e-updates, a list and link to volunteer opportunities (ongoing and special), special events, and a section for other things that might be of interest. Liaisons will provide information to the Community Service Team and to GT's webmaster, who will update our Community Service page as needed. The Community Service team will send out emails to the membership on a regular basis that will identify specific ways for members to get involved and to encourage them to follow the work that our grantees are doing in our community.
